COUNTY CENSUS INDEXES

The entries in these Census Index lists are based on the place-names in the fiche the Library holds.

There are often several place-names on one fiche.

The fiches are filed in enumeration order within each section.

The fiches are filed according to the first name that appears. If you can't find the right fiche, try neighbouring place-names.

Where there are reference code numbers, try a place with the same code.

PARISH REGISTERS AND INDEXES

- Durham and Northumberland Parish Registers are filed in two different sequences, Durham & Northumberland.
- Each sequence contains baptisms, marriages, burials and monumental inscriptions for each location. Baptisms may well include births and confirmations. Marriages may also have banns. Burials may also include funerals.
- There are records for various denominations. Sometimes Dissenters and Roman Catholics are to be found on Anglican records.
- As some fiche contain records for more than one place, each fiche is filed alphabetically under the first place-name on the fiche, which is not necessarily the most important or obvious one.
- The divider cards in the drawers give cross-references.
- The catalogue that follows, however, is in sections: Baptisms, Marriages, Burials and Monumental Inscriptions.
- There are also some records on film to be found in Drawer 42. They are mainly marriages. Consult the relevant section of the catalogue.
- Dodds Baptisms, Marriages and Burials are to be found at the front of Drawer 22 left-hand side.
